MODERNISM FOR THE FUTURE 360 / 365

Kaunas 2022
European Capital of Culture

In cooperation with the main partner of the Kaunas 2022 project (LT), partners of the Intercommunale Leidal (B) and the Institute of Culture Strategy (UA), we are announcing an open call for a residency MODERNISM FOR THE FUTURE 360 / 365.

The modernism movement is one of the strongest recent cultural stories in Europe, bringing together various European regions. For us, it still provides unrealized opportunities for intercultural dialogue, cultural identity and tourism development.

Many of today's modernist objects in Europe are at a "crossroads" where action is needed, whether due to aggravation, neglect or other factors. The project Modernism for the future 360 / 365 [MoFu 360 / 365] addresses the challenges of protecting the global modernist heritage:

- an insufficient story (in many countries modernist architecture has not yet received due recognition or attention, in relation to the more dominant stories of older architectural epochs);
- involvement of owners (modernist cultural heritage sites are often privately owned and therefore the dissemination of values and approaches is essential for their preservation).

The aim of the project and the output of the residences is to strengthen the narrative of European modernist heritage, the ability to reflect its current significance for European and global society through artistic interpretations and the resulting realizations focused on a specific place.

We are looking for artists-researchers whose art projects will be based on the interpretation of cultural heritage, will promote a holistic approach to sustainability and question the importance of modernist heritage for our and future generations. The open call is open to all art disciplines (visual arts, performing arts, media art, photography, literature...). Artists may apply for several residencies, but should send a separate form for each application.

The aim of the residents' artists is to carry out artistic research of one modernist building (Brno, Kortrijk, Kaunas) of their choice, to involve the local community, heritage owners, experts, employees working in the field of cultural heritage and last but not least the general public. Through their work, they will try to develop a diverse interpretation and discussion through the accompanying program and the project itself.

Artists choosing an international residency in Kaunas (Lithuania) or Kortrijk (Belgium):

- develop a work inspired by the Ninth Fort Memorial (Kaunas) or the Hardware Store by Huib Hoste (Kortrijk);
- should practice English on a sufficient level to engage with owners / users on their work;
- produce their artistic research between 1st May and 30th July 2021, on site, for at least 15 days;
- agree to end their artistic residency by a screening / exhibition in the chosen city.

Artists choosing a local residency in Brno:

- develop the work inspired by the one of the private modernist house in Brno of your choice;
- produce their artistic research between 1st February and 30th April 2021;
- are available during the same period for a local screening / performance / exhibition (depending on the artistic discipline);
- due to COVID measures, we facilitate access to the modernist building and a local screening of the work, but cannot provide an atelier or accommodation during the residency period.

From the open call, the expert jury will select 4 art projects, the authors of which will take part in minimum 15 days residences at the place of their selection. The application forms will be judged by an international jury, so the form must be in English, even if you are applying to a local residence in Brno.

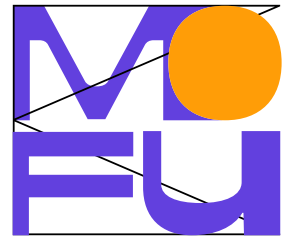

The organisation provides an artistic fee for each artistic project of 3000 €, travel expenses + costs for accommodation, diets, promotion and consultations with experts / institutions, for their creation they are provided with technical and technological background.

The results of their work – art projects, will be presented at the international exhibition in January 2022 at the opening of the event Kaunas Capital of Culture 2022, which promises attendance of more than 80,000 visitors and will last until March 2022. which will be presented as part of the final presentation of the exhibition.

Timeline

15/01/21	closure of open call
22/01/21	selection of artists
01/02 – 30/04/21	local residencies
01/05 – 30/07/21	international residencies
January 2022	final exhibition and publication
